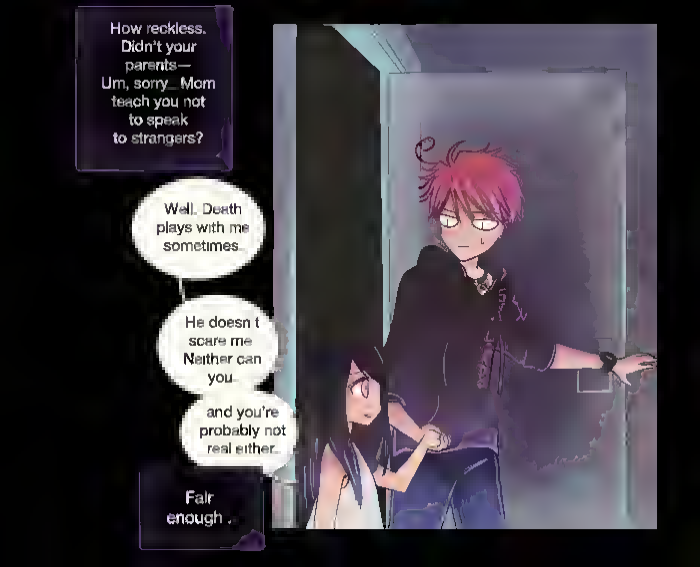
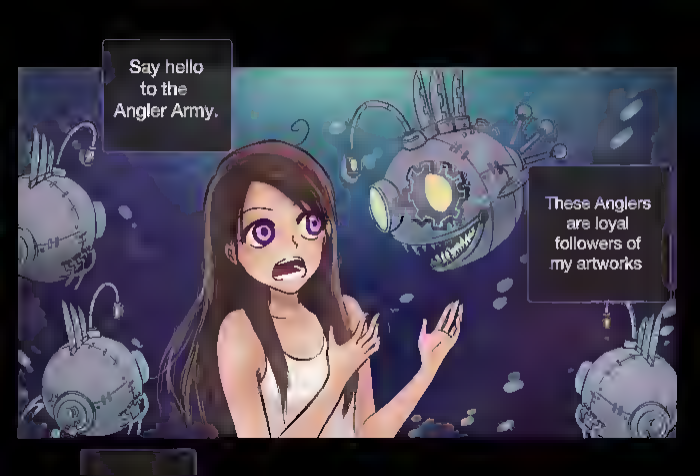
SAILORS



How reckless. Didn't your parents— Um, sorry_Mom teach you not to speak to strangers?
Well. Death plays with me sometimes.
He doesn't scare me Neither can you.
and you're probably not real either.
Fair enough.

Well, welcome to my basement.



Say hello to the Angler Army.
These Anglers are loyal followers of my artworks

Like you, everytime they're unhappy
They'd take refuge in my basement (art).
And in return, they light my world during my darkest hours

So many.
They're really nice too. You like them?
Yes.
Good, I plan on collecting enough Angler Fishes until you're never alone again

...who
exactly
are you?

I am Aidyn.
Adult you.

But—but how? You're... you're...you're sexy! Confident! Charismatic.
Everything people tell me I'm not...
And all these Anglers come to take refuge in your ART world?
The way I look up to artist Yoshihiro Togashi??? (*favorite childhood artist)

But the future is all mine.
I will do everything in my power to make you smile.
I will do **everything** in my power
